

64J-3.002 Public Safety Telecommunication Course Equivalency

An agency seeking to determine equivalency of their training program shall submit a copy of their training curriculum to the Department of Health. The training program shall consist of no less than 208 hours. The department shall identify, on a form provided for this purpose, the instructional objectives within their training program that meet each of the student performance standards as outlined in the Public Safety Telecommunication Program, Occupational Completion Point – Data Code A, Dispatcher: Police Fire and Ambulance – P090101. Entities subject to the jurisdiction of the Department of Education are not eligible for this determination.
