Great JOB!!!

this was a roomful of focused, organized, sharp-minded experts. Altho I had trouble just following along (this was mostly brand new to me), and the material was rather dry at times, it occurred to me many times how lucky Florida citizens are to have a dedicated group like this, but they'll never know. Some complaints about gov't workers are indeed valid, but this group's expertise and passion to get it right far exceed any reasonable citizen's expectations. Cory, Lisa and Julie facilitated this meeting very efficiently and effectively. Thank you for the invitation and warm welcome (and Firehouse Subs for lunch!).

It would be valuable to have outcome information from the current strategic plan to evaluate if certain goals/objectives have been met, can be discontinued or revised. I think this is a topic that will be addressed with new leadership as they communicated wanting to provide a document summing up strategic planning outcomes, completion, etc.

Thank you for all your hard work.

The committee did an outstanding job preparing this session. I know what kinda of energy and time it takes to set up a program or any type of session. You handled this with expertise and paid attention to the details needed to make this successful. Great job!!

This seemed more like an "update" on the strategic plan than the makings of a new plan--maybe that is what it was meant to be. I would have liked to see more exploration on the traditional SWOT analysis (i.e. starting from today's strengths, weaknesses, opportunities, threats) not just how it relates to the current goals--will national healthcare insurance affect the future of EMS in Florida? was never discussed or brought up.

There was a lot of goal "updates" going on at the session. Maybe this could have been done prior to this meeting and reviewed by attendees, then just a discussion could have taken place at the meeting. (If these were available prior to meeting, I did not do my homework!)
